EDUCATION

Parul Institute of Engineering and Technology

Vadodara ,Gujrat ,India

B.Tech Information Technology GPA: 7.85

August 2022-September 2026

SKILL SUMMARY

- Front-end stack: HTML, HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Bootstrap
- Back-end stack: Node.js, Express.js, RESTful APIs, JWT Authentication
- Tools & Platforms: Git, GitHub, Postman, VS Code, Netlify, Render, Figma, Canva
- Database and Other Tech Skills: MongoDB, Mongoose, API Integration, Responsive Design, Deployment, Debugging
- Soft Skills: Presentation, Planning, Problem-Solving, Teamwork, Active Listening, Adaptability, Analytical Thinking.

PROJECTS

GoHelp: On-demand home services booking platform

Tech Stack: Node.js, Express.js, MongoDB, JWT (Auth), Tailwind CSS, EJS, HTML

What It Does: Allows users to book services like house cleaning, babysitting, and tank cleaning. Service providers can manage orders, and users can chat with them in real time.

What I Learned: Real-time database management, authentication with JWT, mobile-first responsive design, teamwork in a 4 member team, and full-stack deployment.

Iconica : Luxury e-commerce platform for Bags

Tech Stack: Node.js , Express.js , MongoDB , Razorpay API , Tailwind CSS , EJS , HTML

What It Does: Users can browse luxury products, add to cart, make payments, and track orders. Admins can manage product listings.

What I Learned: Payment gateway integration, user authentication, product management systems, and real-world order flow logic, How to make protected routes

Ochi Design : Creative Agency Landing Page

Tech Stack: React.js, Tailwind CSS, Framer Motion, React Router DOM

What It Does: A sleek, modern landing page for a creative agency. It features animated page transitions, smooth scrolling, interactive UI elements, and responsive design. Users can navigate through sections like work showcase, studio info, and contact.

What I Learned: Advanced component structuring in React, animation integration with Framer Motion, routing using React Router, responsive layouts with Tailwind CSS, and performance optimization in single-page applications.
